

# Battle Coin (BLTC) — White Paper (Pump.fun Launch)

## 1. Overview

Battle Coin (BLTC) is a decentralized gaming tournament token launching on **Pump.fun**, designed to let anyone **create, host, or join tournaments**. Players compete for **blockchain-backed prize pools**, with automated and transparent payouts. BLTC aims to empower gamers, creators, and developers to participate in a **fair, rewarding, and decentralized gaming ecosystem**.

---

## 2. Vision

To build the world's first **open tournament economy**, where anyone can create tournaments, earn rewards, and engage with competitive gaming **seamlessly on Pump.fun**. BLTC strives to:

- Make competitive gaming accessible globally
- Ensure fair play with blockchain-based verification
- Reward both players and creators sustainably

---

## 3. Token Details

Parameter	Detail
Token Name	Battle Coin
Ticker	BLTC
Total Supply	1,000,000,000 (1B)
Launch Platform	Pump.fun
Standard	Solana SPL
Decimals	6
Initial Circulating Supply 400,000,000 BLTC (Public Launch on Pump.fun)	

**Note:** Pump.fun controls the initial launch allocation to ensure **stable trading, fair participation, and controlled token release**.

---

## 4. Core Concept

- **Create Tournaments:** Any user can set up tournaments in supported games.
- **Entry Fees:** Paid entirely in BLTC.
- **Fee Distribution:**
  - **80%** — Player Prize Pool
  - **15%** — Developer Support Fund (DSF)
  - **5%** — Token Buyback & Burn / Liquidity Support
- All tournament operations are **automated via smart contracts**, ensuring **transparent and instant payouts**.

---

## 5. Tournament Model

1. User selects a supported game on Pump.fun.
2. Sets tournament rules and BLTC entry fee.
3. Players join using BLTC.
4. Results verified via **smart contracts and decentralized oracles**.
5. Prize pool distributed automatically to winners' wallets.

**Example:** A 100 BLTC entry fee → 80 BLTC goes to winners, 15 BLTC + to DSF, 5 BLTC to buyback.

---

## 6. Token Utility

- Tournament entry fees
- Prize distribution
- Creator rewards
- Staking & yield (future)
- Governance voting (future)
- NFT tournament passes (future)

**BLTC is the core currency for tournament participation and ecosystem growth.**

---

## 7. Tokenomics

Allocation	%	Amount (BLTC)	Purpose
Public Launch (Pump.fun)	40%	400,000,000	Fully released, community sale
Ecosystem & Rewards	25%	250,000,000	Tournament incentives
Developer Support Fund	15%	150,000,000	Platform upgrades, maintenance
Liquidity Pool	10%	100,000,000	Exchange liquidity
Marketing & Partnerships	5%	50,000,000	Community growth
Treasury & Buybacks	5%	50,000,000	Token stability & buybacks

**Pump.fun Launch Note:** Initial launch is **controlled by Pump.fun** to ensure **fair distribution and price stability**.

---

## 8. Long-Term Token Value

- **Deflationary Mechanism:** 5% of tournament fees go to **buyback & burn**.
- **Continuous Demand:** Entry fees, staking, and NFT passes drive BLTC utility.
- **Sustainable Growth:** DSF-funded platform improvements and new game partnerships enhance token value over time.

---

## 9. Developer Support Fund (DSF)

- 15% of tournament fees token allocation.
- Fund Usage:
  - Platform upgrades and server maintenance
  - Game API integrations
  - Anti-cheat & security
  - Administration & operations

**Governance:** Multi-sig approvals for DSF spending ensure **transparency and accountability**.

---

## 10. Roadmap (Pump.fun Focused)

### Phase    Description

Phase 1 Public launch on Pump.fun, branding, community building

Phase 2 MVP tournament platform, limited game support, automated payouts

Phase 3 Expand staking, governance, mobile app, and game partnerships

Phase 4 Global scaling: esports partnerships, NFT passes, multi-chain integrations, AI anti-cheat

---

## 11. Security & Transparency

- **Audited Smart Contracts** for prize distribution
- **Prize Pools Locked** until tournament ends
- **Decentralized Result Verification**
- **Multi-Sig Approvals** for DSF expenditures

---

## 12. Fundraising Purpose

Funds raised via Pump.fun will be used for:

- Platform development & UI/UX
- Anti-cheat and server infrastructure
- Marketing & community growth
- Ecosystem expansion and developer incentives

---

## 13. Conclusion

BLTC is more than a token — it's a **complete gaming tournament ecosystem** on Pump.fun. With fair, automated payouts, robust tokenomics, and a strong roadmap, BTCN empowers players, developers, and creators to **participate in and grow the competitive gaming economy**.
